

### Benefits of using EMIR Easy... [just a few of them!]

- With EMIR Easy, you only need to enter a Customer's details once and Easy will then print out the details on all the stationery required, such as Job Cards, Delivery Notes, Invoices and Statements. **No matter how many jobs you book in for that customer, you will never have to write out their address again, saving lots of time and effort.**
- Finding previous jobs becomes a simple task as you can search by Job Number, Customer, Manufacturer, Order Number, References, Serial Number, Invoice Number and Technical characteristics such as Volts, Amps, Phase, RPM and HP/KW. **No need to search through paper job books to identify previous jobs quickly and easily.**
- Reporting that will allow you to analyse Job Profitability by Job, Customer or Department [type of work]. **Allows you to identify which type of work is more profitable, helping you to track and eliminate unprofitable work or customers.**
- Monitor customer activity, to find out who is spending more and who has started spending less, acting as an early alarm and so enabling you to **apply extra effort quickly to ensure that you keep your best customers.**
- Produce all your required paperwork quickly and efficiently from EMIR Easy at the click of a button. **All of these layouts can be customised to fit your existing stationery or will print out on blank A4 paper as standard to save expensive printing costs.**
- Use of Work Done Codes such as [A - Collect Motor, B - Strip Windings, etc.] mean that you can **enter all the work you have carried out quickly and efficiently without the need for typing skills.** Simply pick the work done from the list of known codes and the appropriate sentences **will appear on the Invoice with no typing at all.**
- Export EMIR Easy invoices to your existing Sage accounts package. **No need for retyping of information, simply transfer them at the click of a mouse.**
- Facility to record customer payments and analyse your debtors via the Sales Ledger. See who owes you and how much and for how long. **Instantly produce statements to help you manage the collection of the money owed to you.**
- Track all your Purchase Invoices via the Purchase Ledger, **and find out who needs paying and when. Monitor your spend and ensure you are not sent the same invoice twice!**
- The comprehensive job form will record all the customer's details, the job's details [manufacturer, type, frame, serial, and other technical motor and pump details], the materials used, the labour spent and the work carried out. **This provides a truly comprehensive record of every job you do, that will be available forever more.**
- **EMIR Easy can grow with your business.** Simply upgrade to EMIR Standard when you are ready and you can increase the number of users or add extra functionality modules to control Purchasing, Stock, Quoting, Motor Management and Full Nominal Ledger accounts – **each of them adding even more benefits to help you run your business.**
