

Return on Investment (2)

- **EMIR will make it easy to maintain your Quality system.** How much effort is made in keeping track of all your paperwork and ensuring it is ticked correctly, signed, etc.? How easy is it to lose a PO, Del Note, etc.? Allow EMIR to store it all for you. Everything that happens is stored and easily accessible by Job No, Serial Number, Order No, etc.
- **EMIR will help ensure your work is profitable!** Do you need to see the latest job-costing situation instantly? One fast EMIR enquiry will show you all the Labour, Stock used, and Purchases made on any job. It will alert you to the amount your spending to ensure you don't exceed your quoted price or warn you to change the price to reflect the true cost and your margin! This ensures that you don't wait until you've invoiced the job to find out that you've not charged enough!
- **Help improve your "Cash flow" via EMIR's completely integrated accounts.** Job invoices post straight onto the Customer's Ledger ready for payment, and purchase invoices are instantly validated against the purchase order to ensure you are being invoiced for what you originally bought and at the right price! Ensuring there are no hidden charges to upset your profitability later! Find out in an instant who owes you money and who is overdue with payment. Similarly manage your creditors, and only pay them when they are due.
- **EMIR gives you total control of your business!** EMIR ensures you have the full facts before making decisions regarding job costing, purchases, or payment. You have all the information instantly available to truly control your business without needing to search through a mountain of paper, or ask other staff. The total picture is always right in front of you and instantly available!
- **Don't waste time writing out the same information again and again!** Are you still hand-writing Delivery Notes, Invoices, etc.? Simply enter the information once into EMIR and then choose from the list and EMIR prints correct details every time onto all the relevant documents.
- **EMIR allows you to keep and improve on your existing working practices – no need for big upheaval to accommodate the computer system!** Because EMIR is designed to fit your type of business, it stores all the information you need and it works the way that you do. This means that not only can EMIR give you all the information you need to help you manage your business, but it also means that you won't need to change your working practices to use EMIR and you can benefit from it immediately!
- **Rent it and have no ongoing or additional costs.** Under our rental agreements, your EMIR technical support, training and helpdesk is included in the price!
- **Work from Home! Save time travelling in to work on the weekends!** Need to do some Invoicing, find some info or do some other Admin at the weekends? Well EMIR, is totally compatible with the latest server technology* that means you access EMIR from home and work as if you were in the office! Even allows you to print out documents, reports, etc to your home printer! No need to go into work to access any of EMIR's data, even login from your customer's site via your laptop** and mobile phone!

* Requires server with Terminal services capability such as Microsoft Small Business Server 2003.

** Requires suitability configured laptop and mobile phone combination and appropriate phone network access.

Our EMIR solutions come with on-site Training and Software Support as standard. We are never more than a phone call away.
