 and more...

"From our point of view, EMIR Professional has proved to be an excellent choice. The suitability of the functionality to our multi-site operation allows us to manage our entire business very closely, and the quality of service and support we have received means that the implementation of EMIR and EMIR's day-to-day operation since, have both gone very smoothly."

Mr. Martin Savage (Director)
 Mid-Kent Electrical.

"It's so easy for everyone to use, and all our records are now readily accessible within seconds. (No more searching for hours for that lost piece of paperwork). The Finance system holds so much information that our audit went extremely smoothly, and finally the ability to tailor the system to our own individual needs at a very reasonable cost is brilliant."

Ms. Chris Swan (Finance Director)
 Brownings Electric Co. Ltd.

"The system has allowed me to control the business much more effectively by reducing operating costs, and allowing business expansion without the expected associated increase in costs. But more importantly my staff would not change back to our old system for the world."

Mr. Ron Ransley (Managing Director)
 T.A. Boxalls Engineering Ltd

"We are delighted to have found a system that is so well suited to our business and at such a reasonable cost. We would have no hesitation in recommending EMIR and Solutions in I.T. to anyone considering purchasing such a system."

Mr. Graham Brooker (Director),
 Wilson Electric

"The EMIR system has been superb and the company has definitely moved forward as a result. EMIR has all the facilities to generate the reports we need whilst the job costing and invoicing processes have been accelerated markedly. It's really helping to bring our company into the 21st Century."

Paul Barnett (Commercial Manager),
 DORLEC Limited, Derbyshire.

Our EMIR "Standard" and "Professional" solutions come with on-site Training and Software Support as standard.
