

## DISCOVER EMIR PROFESSIONAL!

### WHAT IS THE DAY ALL ABOUT?

A FREE seminar that is designed to demonstrate, to existing EMIR Standard users, the wealth of innovation and development that is now available in EMIR Professional. This is a great opportunity to explore the methods used by other companies using EMIR.

### WHAT CAN YOU EXPECT?

A relaxed half-day seminar beginning at 10am with regular coffee breaks and lunch provided, for a limited number of delegates so that you can ask questions that are specific to your installation of EMIR, and receive an exclusive special offer, so that you upgrade to EMIR Professional for great value!

Here are just some of the features we'll be showing:

- **Multiple Job Type Options**

- Sales job, new hire and build/assembly including a 1-click build option

- **Multiple Quote Types**

- Separate quote types for sales of units/spares, repair quote enhancements and the new hire quote type featuring planning options, mail-merge to Word for sales, repair & hire types

- **Improved Planning Capability**

- Set budgets, define and plan labour operations and plan required materials

- **Task Management System**

- Define tasks, link to jobs and staff and track their completion

- **Customer & Supplier Complaints**

- Track non-conformities and complaints, ideal for meeting your ISO requirements

- **Skills Database**

- The addition of a matrix to track skills requiring training due and expired
