Why buy from us?

Just some of the many benefits...

Our software is especially designed for use by Electric Motor Repairers, Pump Repairers, and Electro-Mechanical Sales and Services companies, and therefore will closely match your business management needs 'off the shelf'.

We have been supplying our EMIR software to these industries for around 22 years and have many satisfied customers with testimonials to prove it!

We only provide software and I.T. services to the electro-mechanical sales, service and repair industries. We are the only specialist I.T. providers for your industry.

We are members of the AEMT - Association of Electrical and Mechanical Trades, EASA – the electro-mechanical authority, European and Worldwide chapter and BPMA - British Pump Manufacturers Association and we work closely with them to provide software and I.T. solutions that really benefit companies like yours.

We have software to suit every size of company from Sole Traders that require a single-user small business management system, through to Corporate PLC's with Multi-site and Wide Area Network Requirements.

We are experts in your industry; even if you think your business is unique, you can bet that we will have a solution that will closely match your needs. We have a fantastic online 'Virtual Tour' and we will visit and provide you with 'no obligation' demonstrations so you can see this for yourselves with no pressure to buy!

We allow you to buy EMIR over 3 interest free payments – spreading the cost and risk – the final payment isn't made until you have had 30 days approval of the software.
