

**5. FILL IN SAFETY AND SERVICE CHECKLISTS**

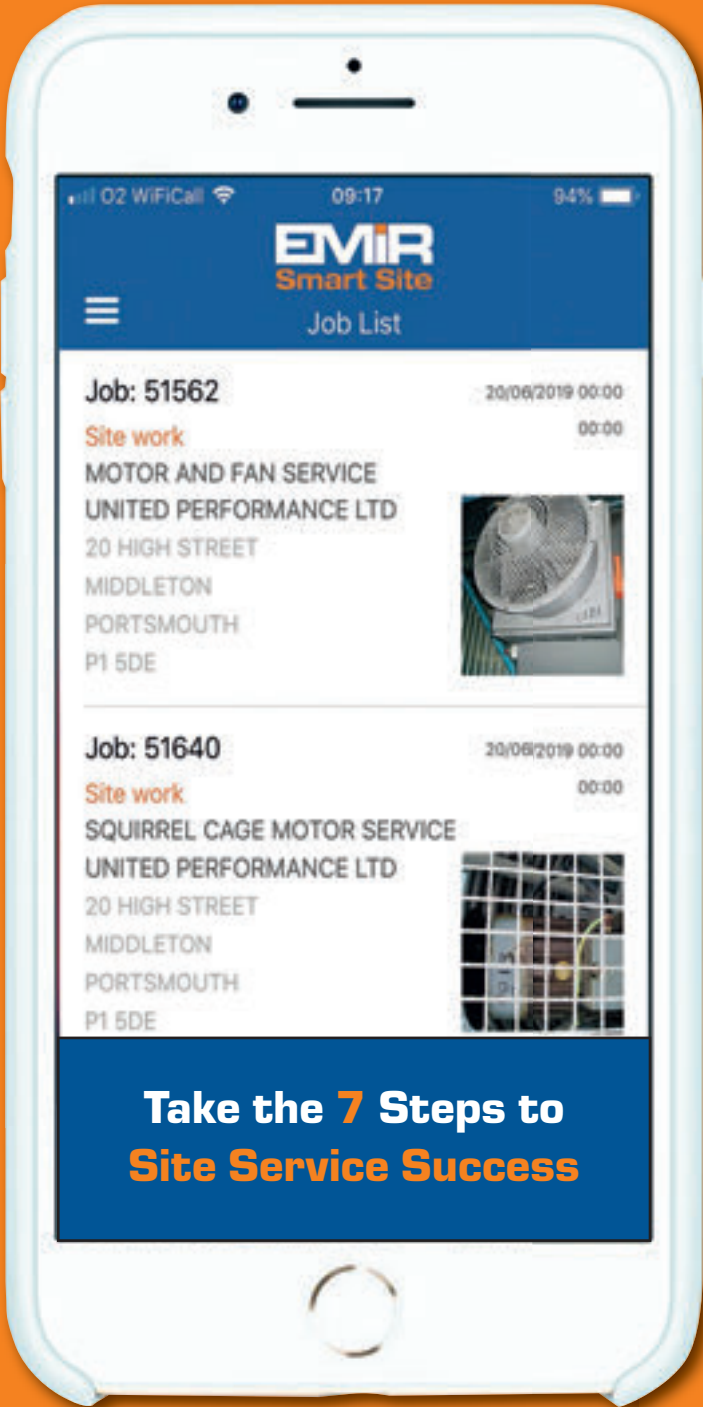

**6. REVIEW AND TAKE RELEVANT PHOTOGRAPHS OF THE WORK**

**SMART Site users benefit from:**

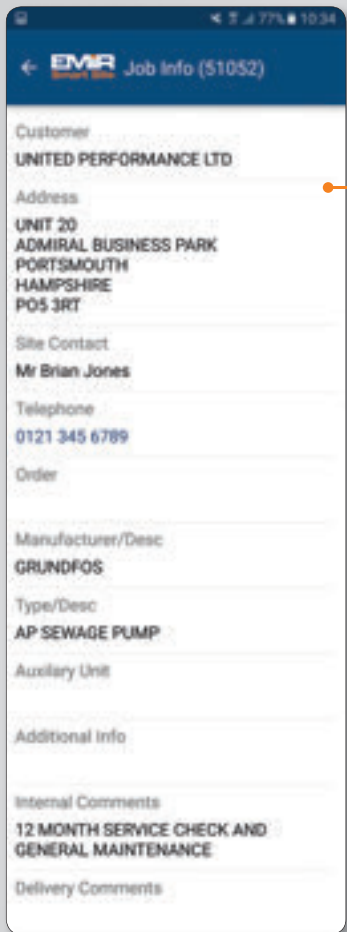

- 1 Both a structured and paperless approach to service delivery – no more printed job sheets!
- 2 A simple to use system that works intuitively on existing Apple iOS and Android Smartphone architecture. No special hardware or user training required!
- 3 The progress of jobs and all of the detail collected can be synchronised with the back office EMiR system as often as required, so you will always know what the engineer has done and, most importantly, be able to invoice soon after the work is completed!

**7. GET CUSTOMER SIGN OFF AND THEN SEND LIVE INFORMATION BACK TO YOUR EMiR SYSTEM**

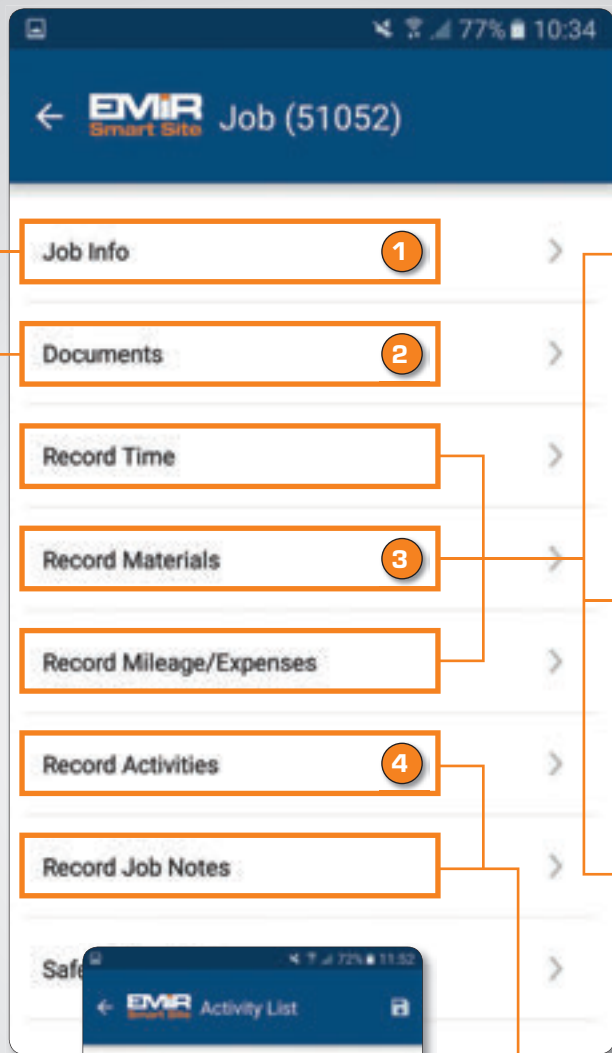

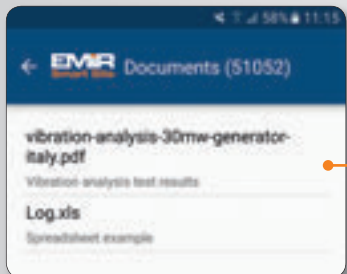

**Take the 7 Steps to Site Service Success**

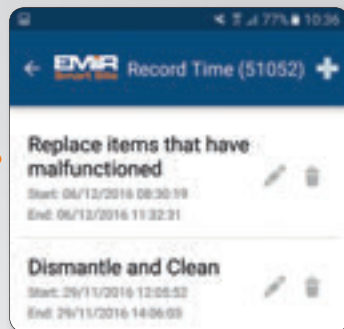

1. EMiR SENDS ALLOCATED JOBS TO THE ENGINEER

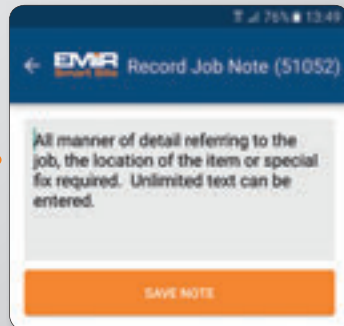

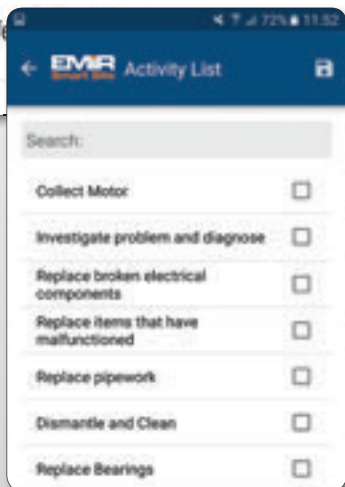

2. VIEW RELATED DOCUMENTS AND INFORMATION

3. RECORD TIME, MILEAGE, EXPENSES AND SPARE PARTS USED ON THE JOB

4. FOLLOW OR ADD NEW ACTIVITIES AND NOTES ON THE JOB

TURN OVER FOR STEPS 5, 6 & 7

Smart Site is just one of 19 feature-rich Modules and Extensions that have been designed for the electro-mechanical industry's favourite business software application, EMiR.

EMiR delivers operational accuracy and certainty which reduces costs, saves time, increases efficiency and improves customer service.

Follow the '7 Steps of Site Service Success'!
