Dr. Martin Killeen – Loughborough College

# Short Courses - Motor Design; HV Testing; AC Motor Theory & Fault Finding; DC Motor Repair

#aemt2015

### **Short Courses**

Dr Martin Killeen

Head Of Advanced Manufacturing and Technology
Loughborough College

#### Present Modules

- Ex family
- Module 1 Theory of Ex repair and Overhaul
- Module 2 Hands on Ex repair and overhaul
- Module 3 Refresher of Ex repair and Overhaul
- Module 4 Bespoke Ex course
- Module 5 Maintenance, removal Inspection and installation in Hazardous areas.

#### Potential Short course delivery

High Voltage Testing

Induction Motors: Theory, Fault finding and Repair.

Induction Motor Redesign.

#### Potential Short course delivery

DC Motors Theory Fault Finding and Repair.

 Synchronous Machines: Theory Fault Finding and Repair.

 Permanent Magnet Machines: Theory Fault Finding and Repair.

#### Potential Short course delivery

Poly phase motor Winding

Rewinding principles and techniques

Vibration and noise measurement

#### Development Issues

Suitable location with the relevant equipment

Assessment methodology

Sourcing specialists to deliver

#### Development Issues

Creating course material to a high quality

Market Research and evaluation

Maintaining copy right

Pricing structure

## Get into discussion groups to identify as starting list of potential courses

List of courses?

Ideal duration?

Creation of a steering group?

Remember we need viability and sustainability

#### Plenary Session
